HEAVY Drop-Side Contractor Bodies

Shown with optional TBU 3624 Underbody Toolbox

Discover The Knapheide Difference

Heavy Duty Drop-Sides with Cheater Board Sockets

- Double latches with heavy duty greaseable hinges.
- 45 degree slanted rub rails.
- Single drop down sides on lengths on 9' to 12'. Split sides (with no center post) for handling ease on lengths of 14' to 18'.

Modern Rear Lights and Protective Skirt

- Modern rectangular sealed lights with weather tight connections, protected under the tailgate.
- Rust resistant punched chassis taillight window (instead of expanded metal).

24" High Double Acting Tailgate with Quick Release

- 10 ga. H.S. steel construction (8 ga. mild steel equivalent).
- The tailgate has the ability to drop a full 180 degrees. 5/16" alloy spreader chains are standard. Tailgates have a "lever operated" drop-down feature as standard.
- Behind the cab trip lever standard for easy dumping.

Aerodynamic Tapered Bulkhead

- Heavy duty 11 ga. high strength steel construction (9 ga. mild steel equivalent).
- Rust resistant punched window (instead of expanded metal commonly used by competitors). Optional 1/4 cab protector shown with the bulkhead.

PLUS COMPLETE IMMERSION IN ELECTRO-DEPOSITION PRIME PAINT

WHY KNAPHEIDE? BECAUSE RUST NEVER SLEEPS

When you buy quality Knapheide contractor bodies, rust shouldn't be a worry. To provide the best protection against rust, we installed K-Coat, our state-of-the-art, custom-designed electrocoating prime paint system.

K-Coat is equivalent to the e-coat systems used by the major auto and truck manufacturers.

Because it bonds paint to steel by an electroplating process, any e-coat system gives you better corrosion protection than spraying. E-coat systems get prime paint everywhere

in a product—including places that are impossible to reach using even the best spray techniques—and is absolutely consistent in thickness. Salt spray tests show that e-coating is far superior to spraying paint for inhibiting corrosion.

K-Coat results in a prime coat that provides excellent chemical and solvent resistance. Our K-Coat system is the best electrocoat prime paint system in the industry. Because rust never sleeps. And because you should never worry about the quality of your Knapheide product.
