

SERVICE BODY OPTION

CORNER MOUNTED CRANE KIT APPLICATION

THE CRANE APPLICATIONS SHOWN BELOW FOR SELECTED 56" AND 60" CA CHASSIS ARE THOSE THAT MEET THE CHASSIS MANUFACTURER'S RECOMMENDATIONS FOR SUB (SECOND UNIT BODY) WEIGHT, SUB CENTER OF GRAVITY HEIGHT AND UVW (UNLOADED VEHICLE WEIGHT). THE APPLICATIONS ARE BASED ON STANDARD BASE VEHICLES WITH NO OPTIONS AND STANDARD SERVICE BODIES (EXCLUDES PLUS-50) WITH A CRANE REINFORCEMENT KIT AND BUMPER. THE ADDITION OF ANY OPTIONAL EQUIPMENT ON EITHER THE CHASSIS OR BODY COULD CAUSE THE SUB WEIGHT, SUB C.G. HEIGHT OR UVW TO EXCEED THE LIMITS PUBLISHED BY THE CHASSIS MANUFACTURER FOR FMVSS CERTIFICATION. IT IS THE RESPONSIBILITY OF THE FINAL STAGE MANUFACTURER TO ENSURE THAT THE SUB WEIGHT, SUB C.G. HEIGHT AND UVW REQUIREMENTS ARE MET FOR EACH SPECIFIC APPLICATION.

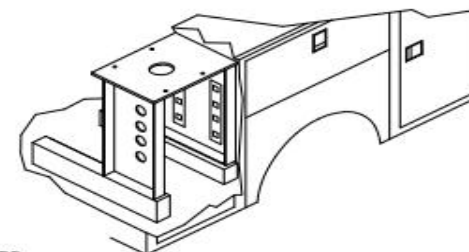

CA	REAR WHEEL	APPLICATION	CRANE LIMITATION
56"	SINGLE	1999 - 2001 F-250/350 SUPER DUTY (STANDARD 40" SERVICE BODIES)	CRANES WEIGHING 365 LBS OR LESS & RATED AT 7000 FT-LBS OR LESS
56"	SINGLE	2002 & LATER F-250/350 SUPER DUTY (10,000 LBS & UNDER GVWR)	CRANES NOT RECOMMENDED
56"	SINGLE	2005 & LATER F-350 SUPER DUTY (OVER 10,000 LB. GVWR)	CRANES WITH MOUNTING PLATES 14" WIDE OR LESS
56"	SINGLE	1999 & LATER SILVERADO C2500HD & C3500, REG & EXT CAB, 4X2 ONLY	CRANES WEIGHING 650 LBS OR LESS & RATED AT 10,000 FT-LBS OR LESS
