TOOLBOXES

KNAPHEIDE STEEL & ALUMINUM TOOLBOXES

Toolboxes from Knapheide are a great addition to a pickup, platform, dump body, or gooseneck body. Pickup applications are mounted on the top of the bed rail to help store the tools and supplies you need to keep your cargo bed open. Underbody toolboxes are available for mounting below the body to help increase storage space. Choose from our steel Roughneck Toolboxes or Aluminum Toolboxes to best fit your work truck's needs.

// STEEL TOOLBOXES

Roll formed galvanized steel construction, double panel reinforced doors and automotive-quality, 3-point T-handle latches make these toolboxes stand above the competition. Available in over twenty different lengths to fulfill your tool storage demands.

// ALUMINUM TOOLBOXES

Knapheide Aluminum Toolboxes feature a durable yet lightweight aluminum construction. A brushed finish provides superior aesthetics and styling. Choose from a variety of depths and lengths to best fit your storage needs.

ALUMINUM TOOLBOXES

STANDARD FEATURES

- Constructed of .100 aluminum sheeting topped with a layer of clear powder coat for maximum protection
- Two-point automotive-quality, rotary style latches make opening and closing easy. Interior cover protects internal latch from damage and obstruction.
- Neoprene door seals protect compartments from weather intrusion
- Continuous, full-length .050" **all** aluminum hinge makes the door open and close with guided ease
- Adjustable zinc-coated door chains
- Built-in water shedding capability comes from the use of a protruding weather channel behind the door and door seal location
- Meant for use above or below the truck body

MODEL	LENGTH	HEIGHT	WIDTH	DOORS

STEEL TOOLBOXES

Above body toolboxes

STANDARD FEATURES

- Automotive-quality, 3-point T-handle latches make opening and closing easy. Interior cover protects internal latch from damage.
- Neoprene door seals protect compartments from the weather
- 14-gauge, two-sided A-40 roll formed construction for strength and durability
- Continuous stainless steel hinges are pry-proof and corrosion-resistant
- Multiple coats of epoxy primer, chemically linked then cured, provide excellent corrosion resistance
- Automotive-grade, high gloss top coat
- Extra heavy duty door chains
- Reinforced 20-gauge double wall door construction for strength without excess weight

NEVER SETTLE

If you are going to be a leader, it takes more than building a high-quality product. It means never being totally satisfied with that product, no matter how high quality it may be. It requires constant vigilance and a willingness to take a chance on something new. And it means exceeding expectations every time. As the industry changes, one thing never will—our commitment to making customers like you as productive and efficient as possible. We know you don't settle, and we don't either. That's why we want you never to settle for anything less than Knapheide on the back of your truck.

Knapheide. Never settle.
