

SERVICE BODIES
WITH RAISED FRONT VERTICAL COMPARTMENT

Model	Net Price	Body Length	Body Width	Standard Body Height	Net Weight
Service Bodies					
A69860		99.25"	81.5"	40"	658
A698D5460		99.25"	94"	40"	731
A6110D4960		109.25"	89"	40"	768
A6110D5460		109.25"	94"	40"	788
A6132D4960		133.25"	89"	40"	911
A6132D546		133.25"	94"	40"	933

Note: D series 89" wide service bodies are not compatible with dual rear wheel 1999 & later Ford Super Duty Chassis cab.
Use of Standard 'J' Service Body in a medium duty application may require the modification of the fenderskirt and the installation of fenderettes to maintain adequate tire clearance. See option index for ordering fenderette kit.

The standard body configuration is with a 60" high raised front vertical compartment on the curb side (bottle gas retainer not included) and one vertical door on the raised compartment. Automotive style rivetless rotary latches, gas spring door retainers are provided on all vertical doors. Units have prime paint exterior and interior.
