FORESTRY BODIES

KNAPHEIDE FORESTRY BODIES

FORESTRY BODIES

The Knapheide Forestry Body is America's premier chipper body packed with industry-leading features to help you get the job done.

When looking for your next forestry body, choose Knapheide, the most trusted name in the industry.

FORESTRY BODY

Engineered and built for ground or aerial applications, all Knapheide Forestry Bodies are fully immersed in our exclusive electrodeposition prime paint system for superior corrosion resistance. Smooth side panels allow for maximum-sized company graphics to easily be applied. All Knapheide Forestry Bodies feature LED lighting for longevity and low maintenance.

COMMITMENT TO
CORROSION RESISTANCE

Corrosion won't be a concern when you buy quality Knapheide products. To give you the best corrosion protection, we utilize a state-of-the-art, custom-designed, 12-step, SST cathodic electrodeposition finishing system, called "E-Coat."

It bonds prime paint to steel by an electroplating process to give you a superior coat of primer, resulting in better corrosion protection compared to spraying methods.

This system allows us to create products with the highest level of corrosion resistance available.

NEVER SETTLE

If you are going to be a leader, it takes more than building a high-quality product. It means never being totally satisfied with that product, no matter how high quality it may be. It requires constant vigilance and a willingness to take a chance on something new. And it means exceeding expectations every time. As the industry changes, one thing never will—our commitment to making customers like you as productive and efficient as possible. We know you don't settle, and we don't either. That's why we want you never to settle for anything less than Knapheide on the back of your truck.

KNAPHEIDE. NEVER SETTLE.
