# KNAPHEIDE ALUMINUM SERVICE BODIES

Aluminum service bodies from Knapheide feature a superior design and innovative construction.

Utilizing military-grade aluminum and structural adhesives are just a few of the features that place our aluminum service bodies far ahead of the competition.

## STANDARD ALUMINUM SERVICE BODIES

In order to provide customers with the utmost confidence in our aluminum service bodies, we put them through the most rigorous testing program in history. They were subjected to the harshest environments and applications possible in our lab, on proving grounds — and by real customers like you.

Choose a Knapheide Aluminum Service Body and you'll get corrosion resistance, increased payload, and an aluminum service bed that is just as durable as steel.

**AEROSPACE ASSEMBLY TECHNOLOGY**

Assembled entirely from Grade 5 hardware and structural rivets that are coated specifically not to corrode with aluminum materials.

# COMPARTMENT CONFIGURATIONS

## 500 SERIES COMPARTMENTS

The 500 Series Service Bodies feature a horizontal compartment that stretches from the first vertical compartment to the end of the body with a small, rear lower compartment.

## 600 SERIES COMPARTMENTS

The 600 Series Service Bodies feature a horizontal compartment that is positioned over the wheel well and one vertical compartment in the front of the body and one at the rear of the body.

## 700 SERIES COMPARTMENTS

The 700 Series has 500 Series configuration on the curb side and 600 Series on the street side.

## LOW PROFILE BODY

Low Profile Bodies, denoted by "LP", offer greater visibility from the cab while only sacrificing 4" of the body height compared to a standard Service Body.

## RAISED FRONT COMPARTMENTS

This configuration raises the curb side front vertical compartment to 60" tall, denoted by "60". "60-L" indicates raised front compartment on the street side (left) of the body, and "60-B" indicates raised front compartments on both sides.

## FLIP TOP COMPARTMENTS

Flip Tops, denoted by "F", allow for greater internal storage, organization and flexibility. Knapheide Flip Tops have a slammable top lid door and a convenient one-hand release located in the horizontal compartment.

## PLUS 50 TRANSVERSE COMPARTMENTS

Plus 50 models feature a transverse compartment in the curb side front vertical extending to the street side compartment back. Plus 50 models have 50% more effective storage capacity. Models are denoted by "50".

Depending on body model, drawers will be either 59" or 69" long. Contains 3-4" drawers with full width pull handle. Drawers are rated for 250 lb. and include dividers.

# COMMITMENT TO CORROSION RESISTANCE

Aluminum bodies are naturally corrosion resistant. Where steel fasteners are used, those fasteners are coated with “EcoGuard” to eliminate the interaction between the steel and aluminum.

This aluminum assembly method both allows us to create products with the highest level of corrosion resistance available.

## NEVER SETTLE

If you are going to be a leader, it takes more than building a high-quality product. It means never being totally satisfied with that product, no matter how high quality it may be. It requires constant vigilance and a willingness to take a chance on something new. And it means exceeding expectations every time. As the industry changes, one thing never will—our commitment to making customers like you as productive and efficient as possible. We know you don't settle, and we don't either. That's why we want you never to settle for anything less than Knapheide on the back of your truck.
