

KNAPHEIDE VAN EQUIPMENT INSTALLATION INSTRUCTIONS FOR BOXX SLIDES 12322848

DOCUMENT # 68188-01

KNAPHEIDE
SINCE 1848

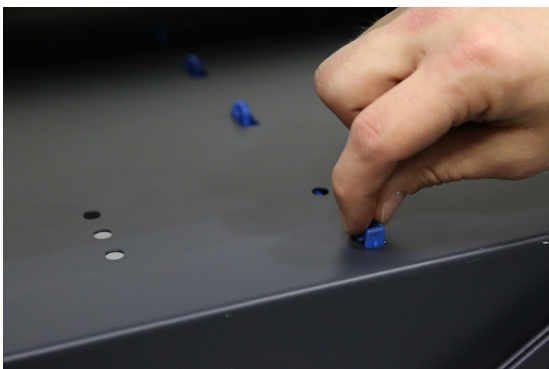

BOXX slides are required for adding boxes to the upgradable shelf. This includes the S, T, L, LS and M-BOXXES.

NOTE: BOXX slides are not compatible with the shelf tray or when using the upgradable shelf lip. The shelf lip, when present, should be removed prior to adding the BOXX slides.

Insert Boxx slide into the slots in the upgradable shelf.

NOTE: Check BOXX spacing requirements prior to installing BOXX slides.

Pull the BOXX slide forward (towards the front of the shelf) as far as it will go.

Press the BOXX slide down starting in the middle and moving to the back. The BOXX slide should snap into place when fully seated on the shelf.

To remove the slide from the shelf, pinch the tabs at the rear of the BOXX slide from the underside of the shelf. Removal is the opposite of the installation.

NOTE: Use a small pair of plyers to install BOXX slide in the corners of the shelves.

NOTE: Refer to the next page for BOXX SPACING TIPS.

This document must not be copied or communicated to a third party without the expressed authorization of The Knapheide Manufacturing Company.

FOR REF ONLY

Printed copies are uncontrolled.

DON'T FORGET BOXX SLIDES

of BOXX slides needed =
