

The Staxx Slide Kit SS4 is meant for use with T, M, L & L- BOXXes.

The kit includes 2 universal plastic slides and mounting screws and nuts. The Staxx Slide Kit is compatible with all 2-wide shelf Staxx.

**NOTE:** The i-BOXX, Standard S-BOXX and Wide S-BOXX are not compatible with SS4 kits.

**NOTE:** Prior to mounting Staxx Slides, make sure there is enough space available for installing Axxessory Boxxes.

Refer to the back of the Exxpand Installation instructions manual for BOXX space requirements.

1000002820 HARDWARE KIT		
QTY	PART #	DESCRIPTION
4	71004896	SCREW (M6 X 16)
4	71003884	PAWL NUT (M6)

1. Determine desired height of Staxx Slides and install each slide with the provided hardware.

**NOTE:** Only 2 screws and nuts are required per slide. Front and rear positions (shown) are ideal but the Depth 3 intermediate hole can also be utilized.

2. Insert Axxessory Boxxes after the Staxx Slides have been installed.

**NOTE:** Be sure to mount Staxx Slides at the same grid height on the left and right Staxx end panels.
