IN-CAB SHELVING

KNAPHEIDE IN-CAB SHELVING

TRUCK CAB SHELVING

Knapheide's In-Cab Shelving System makes better use of rear seating by turning it into practical, organized storage for crew and extended cab trucks without restricting seat travel. It keeps tools and equipment protected, easy to access and out of the elements with its in-cab design.

Each system includes shelf liners to keep items secure and reduce noise, along with utility hooks for added flexibility. Designed with safety in mind, it meets FMVSS standards and installs easily using existing OEM mounting points. Available for all major OEM truck platforms — and continually expanding — it's a simple, reliable way to standardize your fleet.

KNAPHEIDE®

SINCE 1848

★ AMERICA'S ★ **WORK TRUCK™**

The decisions you make about your equipment carry real weight. Your schedule, your team and your customers all depend on your tools to perform the way they should. That's why Knapheide goes beyond the build. By bringing innovative design, engineering, manufacturing and support together, you get a work solution that's ready from day one and stays consistent over time. American-made since 1848 and shaped by generations of experience, Knapheide fits the way you run your business and supports where you're headed next. It's a partnership you can count on every step of the way.

UNITED IN WORK.
